7			
8			
9			
10			

* Skip= maximum speed to set point, Value set by entering 9999.

Firing Record

Date	Start Time	Whose Firing?	Notes

Project Component Record

Use this form to record the product label information for products used in a fused or cast glass project. Doing so will enable you to reproduce the materials you used for a future project, or to help trace a problem if one should occur.

	Item #	Description & Quantity	Production date (if available)	Sheet Numbers (if applicable)
example:	60-56-96	Smooth black sheets: 3	10/14/2011	127, 128, 135
