

HAND-ROLLED ART GLASS

SHEET SIZES AND PACKING INFORMATION

Sheet Sizes		
5.0 sq ft	24"x30" (61x76cm)	avg wt 8.3 lb (3.75kg)
4.0 sq ft	24"x24" (61x61cm)	avg wt 6.6 lb (3.00kg)
2.5 sq ft	24"x15" (61x38cm)	avg wt 4.2 lb (1.91kg)
Hand-Rolled Drapery sizes vary widely	approx: 14"x24" (36x61cm)	avg wt 7.5 lb (3.40kg)

Typical thickness for non-textured sheets: 0.125" (3mm)

Uroboros Art Glass sheets are 100% hand-rolled to achieve a randomly textured surface, and a rich variable 'antique' light transmittance. As a result, surface irregularities occur which increase the effective thickness of the sheets slightly. Fracture-Streamer sheets are rolled slightly thicker. Textured sheets' thicknesses vary with the texture and can average 0.25" (6mm) or more.

Typical Case Dimensions and Weights for motor freight shipments:

Hand-Rolled Smooth, Granite or Fracture-Streamers are packed 45 sheets to a case.

Rippled textures are packed 35 sheets to a case.

Case dimensions are: 36"L x 14.25"D x 31"H (91x36x79cm).

Typical packed case weight is approximately 400 lb (182kg).

Cases are bundled into groups of three for a pallet-sized shipping unit.

Single cases are shipped with angle bracing, so measured dimensions are higher.

Boxing dimensions for small scale shipments:

15"x24" : up to 8 sheets per 29.5"x12.5"x21.75" cardboard box

12"x12" and 12"x15" : up to 12 sheets per 17.5"x19.25"x11.25" cardboard box
