Standard thickness (60-series): 0.125" (3 mm)

Thins (61-series): 0.065" - 0.075"/1.65 – 1.9mm

Textured sheets' thicknesses vary by texture and can average as much as 0.25" (6mm).

Typical case dimensions and weights for motor freight shipments:

Hand-Rolled smooth, and lighter textures are packed 45 sheets to a case.

Rippled textures are packed 35 sheets to a case.

Case dimensions are: 36"L x 14.25"D x 31"H (91x36x79cm)

Typical packed case weight is approximately 400 lb (182kg).

Cases are bundled into groups of three to form a pallet-sized shipping unit.

Single cases are shipped with angle bracing, so measured dimensions are higher.
